

Solutions to age related issues in education sector

Newsletter 1

May 2023

About the Project

We are thrilled to introduce our project focused on age management in the education sector. Over the course of the last 18 months, our partnership team comprising educational experts, researchers, and professionals have worked diligently to address the challenges posed by an ageing workforce and develop innovative strategies for creating age-friendly schools. Let us provide you with an overview of our project.

Project Outputs

Through this project, we have aimed to develop a range of practical outputs that will benefit teachers, school leaders, and stakeholders. These outputs include comprehensive training materials, guidelines for age-friendly policies in schools, case studies showcasing best practices, and innovative methodologies for fostering intergenerational learning. Our goal is to equip educators with the necessary tools and knowledge to create inclusive and supportive environments that cater to the needs of all age groups.

Expected Results

By implementing the age management strategies promoted by our project, we anticipate numerous positive outcomes.

These include increased teacher retention rates, improved job satisfaction and morale among staff, enhanced student engagement and academic performance, and the establishment of a culture of lifelong learning.

Ultimately, our project seeks to create sustainable and age-friendly school environments that empower both teachers and students.

Co-funded by the
Erasmus+ Programme
of the European Union

Project: Solutions to age related issues in education sector

Project No: 2021-1-CZ01-KA220-VET-000033227

Asociația pentru Sprijinirea Inițiativelor Educaționale

Follow us on this project and we will keep you updated with the main achievements and results!

Partnership Team

Our project brings together a diverse and experienced partnership team. Comprised of educational institutions, organizations, and experts from across Europe, our team combines a wealth of knowledge and expertise in the fields of education, age management, and professional development. Together, we are committed to driving positive change and fostering age-friendly practices in the education sector. Involved are the following organisations: AdM (Italy), ASIE (Romania), CESUR (Spain), EIA (Portugal), ProEduca (Czech Republic) and SBTC (Turkey).

Time Frame

The project commenced in January 2021 and will be finished in December 2023. This extended time frame has allowed us to conduct thorough research, develop innovative resources, and implement pilot initiatives in educational settings. By the project's completion, we aim to have a significant impact on age management practices and inspire positive change within schools across Europe.

Stay tuned, we'll be back with more information soon!
